Zaneen's NoName series is a bold, boundary-pushing lighting solution, starting with its name. "NoName" becomes a metaphor for the collection's core philosophy: limitless creative potential and design flexibility.

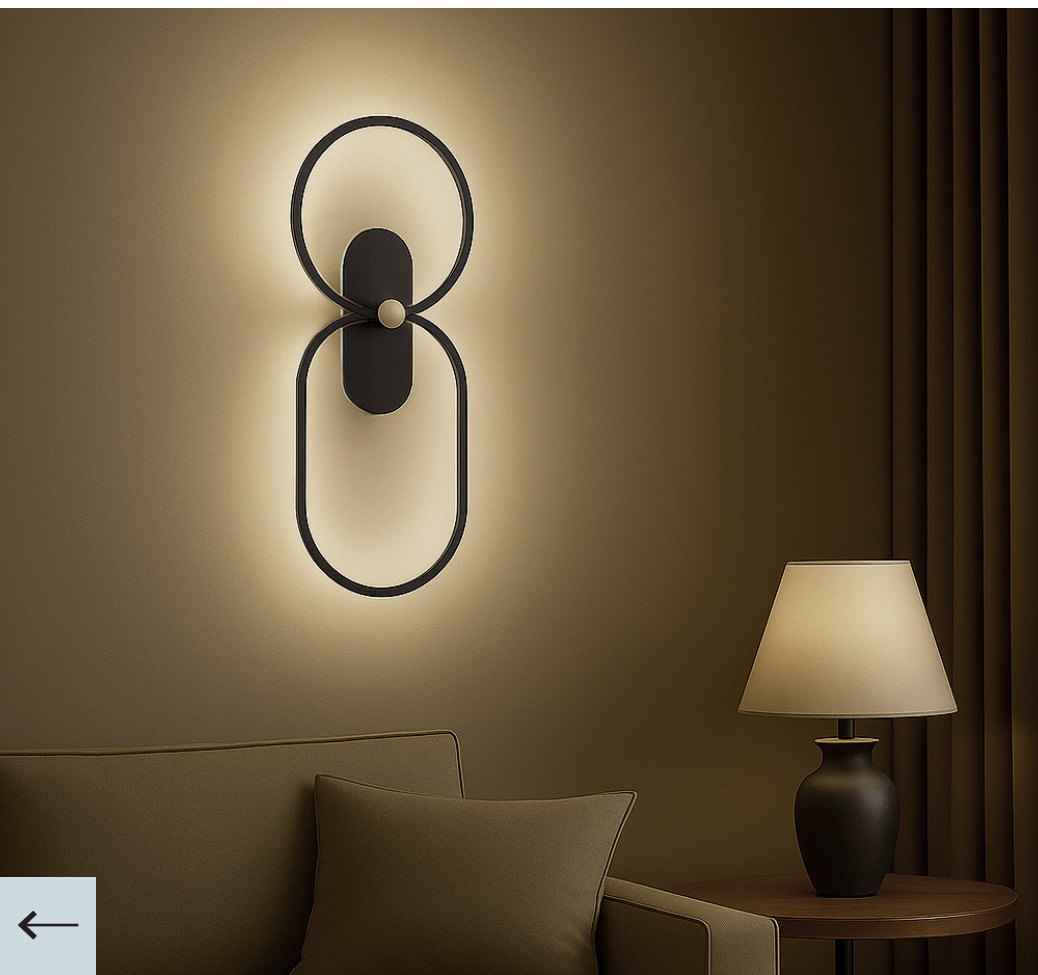

This geometric, modular series is defined by its interplay of circular and elliptical forms, evoking movement and fluidity to create a dynamic visual presence.

Offering an extensive range of standard options and modular capabilities, NoName empowers designers to craft lighting tailored to each of their projects.

Standard Options - Foundation of Flexibility

Standard Options Foundation of Flexibility

NoName offers broad appeal and functional advantages, standing as an intersection of architectural precision and design elegance – making it a standout solution for specifiers.

The standard offerings for this series are thoughtfully composed to offer designers a refined, ready-to-specify product with flexibility still built in.

Shapes

Circular

- Circular
- Elliptical

NoName features circular and elliptical shape options that intertwine to create mesmerizing patterns. The soft curves and symmetrical lines provide an understated architectural presence while offering the flexibility to adapt to a variety of spatial needs.

The interplay between the two shapes adds depth, elegance, and a dynamic design to any environment.

Light Distribution

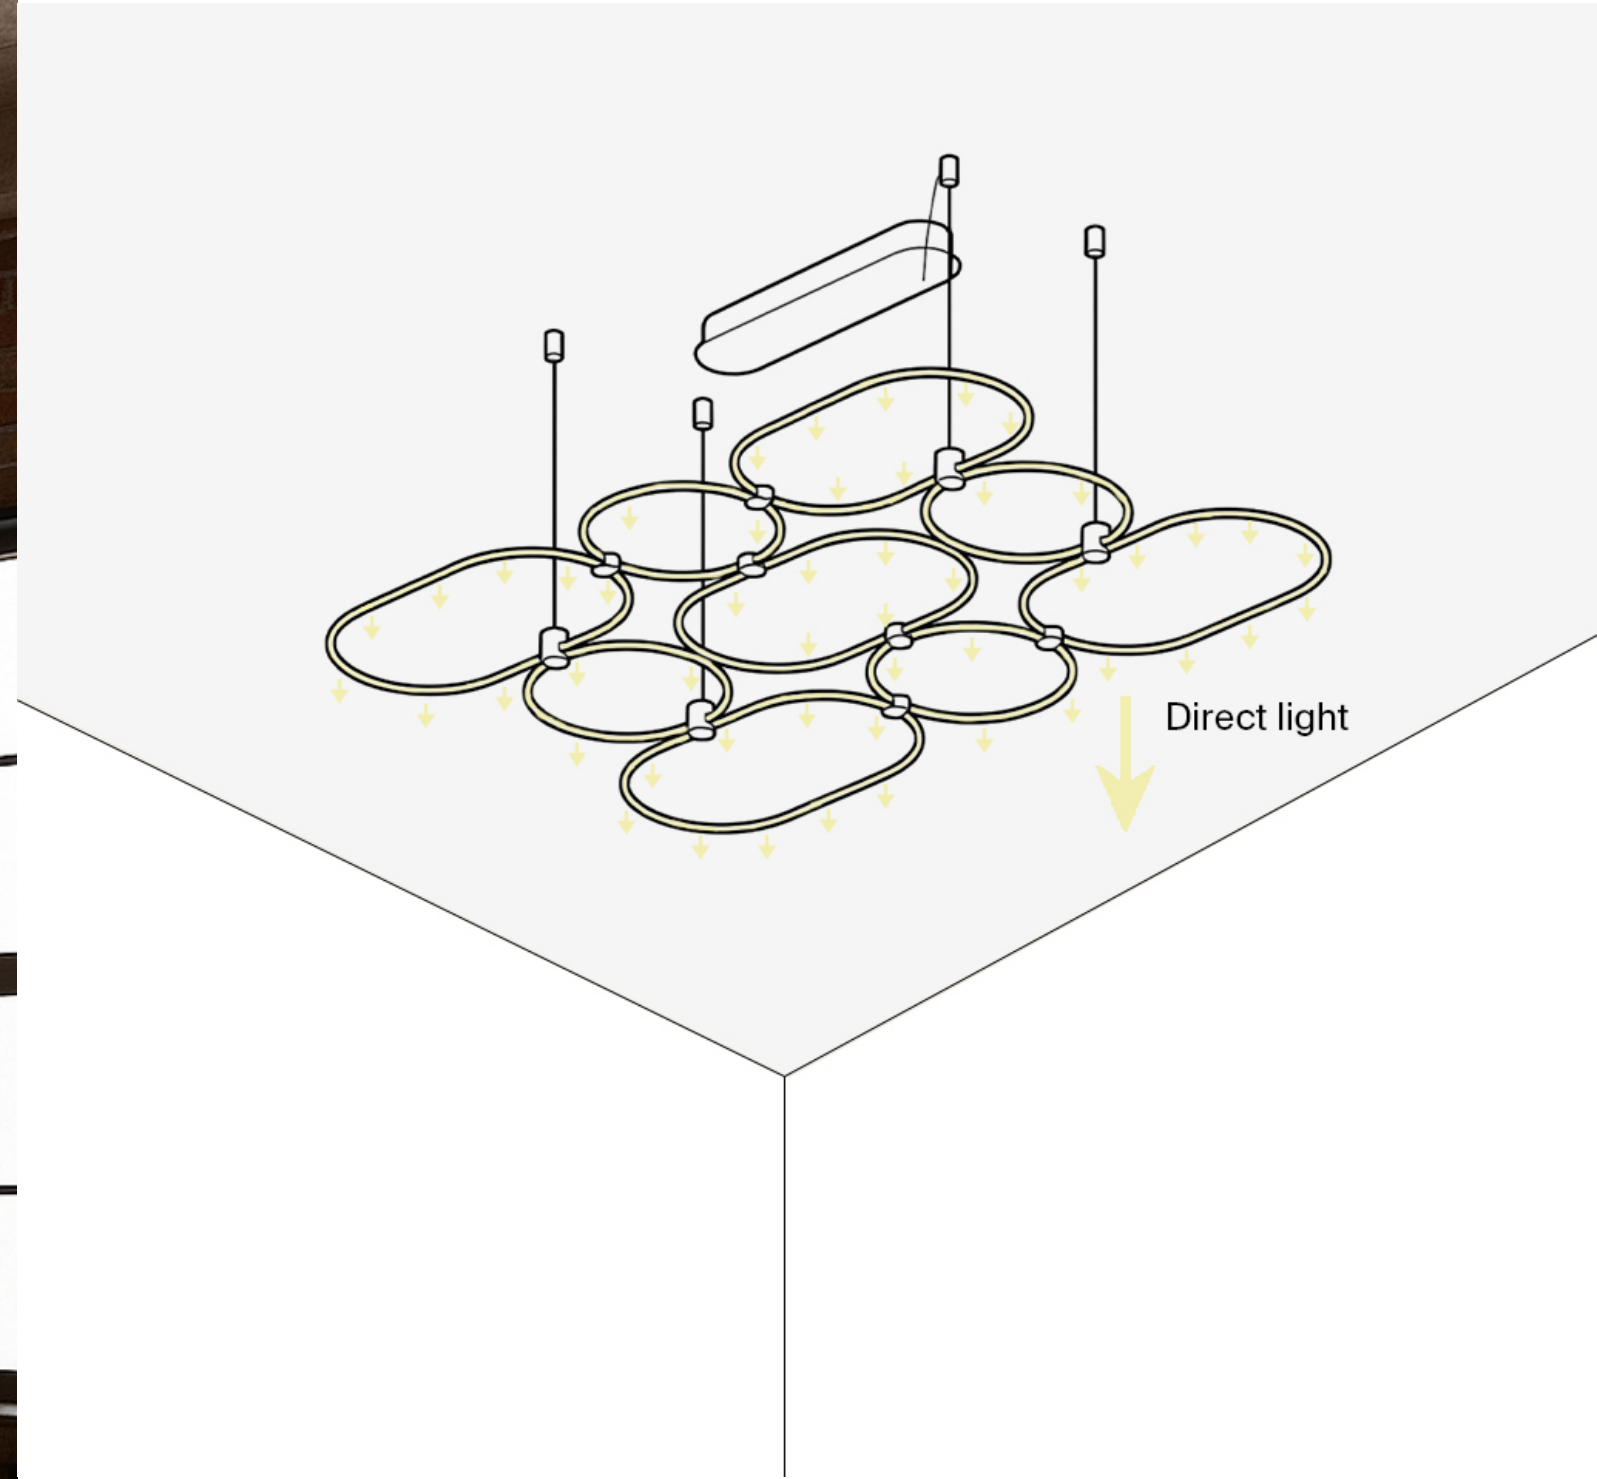

- Direct
- Indirect
- Direct/Indirect

NoName offers flexible light distribution options (direct, indirect, or a combination of both) allowing designers to tailor the illumination to suit the ambiance, task requirements, or mood of the space. Each option delivers high-quality light output with minimal glare, ensuring optimal visual comfort while enhancing the overall atmosphere.

Whether emphasizing architectural details or creating a soft, ambient glow, NoName adapts effortlessly to diverse lighting needs.
