

There are two basic elements to form this fixture: lamp heads and tiny metal rods, which create a universe of light.

Universe as a single-family has a wide range of conducive designs, ones that incorporate vertical glass rods, illuminating drops and different shapes, like rigid grid squares to abstract formations. It has customizable functions, from scale to shape, and can have a modified number of E10 light bulbs for budget friendly designs. Picture all the stars of the universe captured in one fixture.

Abstract

31" x 14" | 50" x 16" | 70" x 16" | 74" x 16"

Disc

47" | 78" Ø

Square

35" x 15" | 35" x 10"

Square drops

60" x 12"

Square glass

40" x 34"

Colors

- nickle
- brass
- black brass

Notes

custom sizes upon request

Features

- E10 LED light bulbs
- Handmade craftsmanship
- Available in 2600K, 3000K, 3500K
- Refer to Cosmos for the COB LED version
- Other color temperatures upon request
