

Geometric ceiling lights that look like colorful, oversized icons - Glorious stages extraordinary spaces with a hint of pop art and science fiction.

Glorious is the family name for three geometric shape profiles: Glorious (circular), Victory (triangular) and Quantum (square). Each are offered in recessed, surface, and suspension applications. The profiles are adapted from the Super-G Family, with the same width and light distribution. With direct and direct/indirect options, along with three color temperatures and 29 standard color finish options, the design possibilities are endless.
