Cylindrical Diffuser Shape in Matte White

# Recommended Applications

Picture academic institutions coming alive with focused study areas, libraries transformed into inviting reading spaces, and airport lounges exuding sophistication. Shared office spaces boast personalized workstations, public locations radiate with artistic flair, and healthcare communal areas provide a calming atmosphere.

In academic settings, stability is paramount to prevent accidental knocks. In hospitality, secure installations ensure a lasting impression, while restaurants benefit from a consistent and safe lighting solution. Public spaces thrive with added durability, making Elle modular lamps the ideal choice for every unique application.

# Best in Multiples

When displayed in multiples, these lamps create a cohesive and visually striking aesthetic, enhancing the ambiance of hospitality locations, libraries, and public spaces. The more you require, the more you can tailor each lamp to fit your specific project needs.

For those seeking even further personalization, we're here to help. Share your product requirements and project quantity with us, and we'll tailor options to meet your specific needs. Customize your lamps with features such as adjustable tilting options for altering light angles, alternative screen types like microprismatic instead of opal, a variety of RAL colors upon request, customizable base shapes, and more.
