

Zero Shapes is designed for clustering and cascading with a large selection of canopy options that are flexible in size, configuration, and design.

Zero Shapes is a family of light profiles that sits just over 1" in height and is composed of the Zero Ellipse, Zero Round, and Zero Square. The body is made of extruded curved aluminum with an opal polycarbonate screen covering an LED strip that runs the internal side of the profile. The minimalism of the structure combined with the emission of internal light gives the luminaire an incredible lightness.

<u>Round horizontal</u>	20" 30" 38"
<u>Round vertical</u>	20" 30" 38"
<u>Ellipse</u>	51" x 23"
<u>Square</u>	18" x 12" 26" x 26"
<u>Surface</u>	10 ¼"

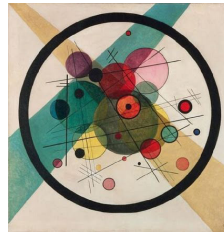

<u>Colors</u>	<ul style="list-style-type: none"> ○ white ● black ● bronze ● titanium ● matte brass
---------------	---

Notes Upon request: rod suspended

<u>Features</u>	<ul style="list-style-type: none"> → Over 12 canopy options → Remote driver for no canopy installs → Custom sizes 	<ul style="list-style-type: none"> → Easily interchangeable with other families: Zero Round Acoustic and Arena
