### ARCHITECTURAL | 2LOOK4 80

2LOOK4 is a cutting-edge series of trimless systems designed for seamless architectural flow and consistent solutions for complex projects. The MULTI AXIS POSITIONING system, tool-less mounting and, if desired, indirect back-lighting characterize the 2LOOK4 80 channel. The profile is equipped with internal mounting rails on both sides, which allow tool-free installation of the inserts. With IMAGINE spots available in 27 colors, this border-less profile system offers many design options for accentuated lighting in the room.

Thanks to an adjustable articulated arm with MAP (multi-axis positioning), the rotation height and side angle can be adjusted tool free. The install is a simple twist lock making it easy to reposition the spots individually in the channel. You have the flexibility of modifying the spots to include any optic from the Oiko Pro Family. This offer higher UGR values and sharper beam optics.

### SYSTEM GUIDE

To make your product selection and complete system specification, proceed with the following:  
review system options, create your system code in the field below and include your quantity.  
For the inserts, use the field beside each product name.  
Submit to [quotes@zaneen.com](mailto:quotes@zaneen.com) to receive a formal BOM and finalized model numbers.

### SYSTEM SUMMARY

#### System

##### Type

Trimless (Non-IC type)  
Rated for Dry Locations Ceiling Mounted

##### Approval Status

CSA Certified to CSA and UL Standards

##### Emission

Refer to emission icon beside each light insert and symbol legend for descriptions

##### Profile

##### Measurement

w 435mm (17 1/8") x ht. 175mm (6 7/8")

##### Housing

Anodized extruded aluminum profile available per meter and field-cuttable  
Profiles have a maximum length of 3000mm (9' 10 1/8") and joined together with couplers to ensure uniform appearance and easy installation

##### Cutout

w 125mm (4 1/8") x Profile Length + 45mm (1 3/4")

##### Drywall Ceiling Thickness

Mounting brackets must be specified considering the ceiling thickness of 12.5mm (1/2")

##### Recessed Depth

h 200mm (7 7/8")

#### Electrical

##### Connections

Luminaries are pre-wired by factory

##### Power Feed

Located in the center of the start module with a 22mm diameter hole  
3 Wires - non-dimming or phase dimming  
4 Wires - two circuits of non-dimming or phase dimming  
5 Wires - 0-10V dimming or dali dimming

##### LED Driver

Integrated with inserts  
Electronic Class 2 driver, Universal 120V/277V  
Non-Dimming Driver, Phase Dimming Driver, and 0-10V Dimming Driver (10-100%)  
Consult factory for driver cutsheet  
If a different driver is required, please specify

##### Emergency Inverter Compatible

To be installed remotely, and provided by others  
It can be located up to 250m away from the fixture

Emergency circuit wiring is available upon request (Isolated track with dedicated driver used for emergency circuit will connect to emergency battery pack - supplied by others)

#### General

##### Features

LED strips are available in various light colors and outputs for separately switchable and dimmable back lighting of the channel

The visible opening of 80mm is equipped with internal mounting rails on both sides, which allow tool-free installation of the inserts

Thanks to the adjustable articulated arm with MAP (multi-axis positioning), the rotation, height and side angle can be adjusted

The interchangeable lens pack enable you to optimize the visual comfort in each lighting situation, without the need to change the lighting system. Using the linear spread lens, the light cone can be stretched into a long oval, perfect for passages and corridors without projecting arcs onto the walls. A diffuser or spread lens made of structured, toughened glass softens the accentuating light of a spotlight and thus reduces the sharp delineation of the arc. A honeycomb grid can be used to reduce glare and can be combined with both the spread and linear spread lens

##### Custom Requests and Additional Options

Availability depends by insert, system, and configuration  
Must consult factory and allow up to 5 business days for an answer

Special beam angles, individual sizes, Special LEDs, light inserts with different outputs

Special LEDs optimize luminaries to meet different applications  
Gold+ invokes a heavy golden tone intended for bread and pastries  
Meat+ displays saturated red light (white parts of product will appear slightly red)  
Art+ highlights pieces of art without adversely affecting the perception of individual colors  
Fashion+ has the entire color spectrum brilliantly orchestrated without distorting the color temperature

##### Configuration

Consult factory for patterns or custom designs  
Provide configuration drawings

\*Shop drawings provided upon receiving purchase order

#### Warranty

ZANEEN provides a limited warranty from date of purchase to original purchaser

**LED Inserts:** 5 year tested for 50,000 hours at 70% lumen output (L70)

**LED Driver:** 5 year

**Non-Electrical Components:** 1 year

\*Check boxes to complete specification order and submit to quotes@zaneen.com to receive a formal BOM and a finalized model number

\*In a constant effort to supply the best product, we reserve the right to change specifications or materials without notice. The most recent specification sheets are found at zaneen.com

**Digital:** Not all screens are calibrated the same, and therefore, colors will appear differently between screens.

**Physical:** When texture is involved, there will be variations in color, character and tone within a product series and between product families.

**Champagne Cream, Copper Mine, Ancient Bronze + Jazz Gold:** These finishes have slight fading from specific powder coating production. Each luminaire will slightly vary.
