DESIGN

The careful study of miniaturization of the technology is the key to BELLA's exceptional compactness. The suspension lends itself to creative configurations with light interplay from the direct and indirect light source orientation. As small as performing, BELLA is a contemporary disc of light which offers high performance in minimum space. White, black, titanium, bronze and matte brass finishes are available

Ivory fabric lampshade "Bella vestita" is designed by Matteo Thun. The pleated shade adds a softer appeal to the distinguished glow of the Bella
