

WARNING: KEEP THESE INSTRUCTIONS

Safety can only be guaranteed when users follow these instructions precisely. Always disconnect the fitting from the mains when working on it. Assembly must only be carried out by qualified personnel Lamp specification labels must not be removed for any reason Do not install in a case of rain or humidity

LAMP ASSEMBLY GUIDE

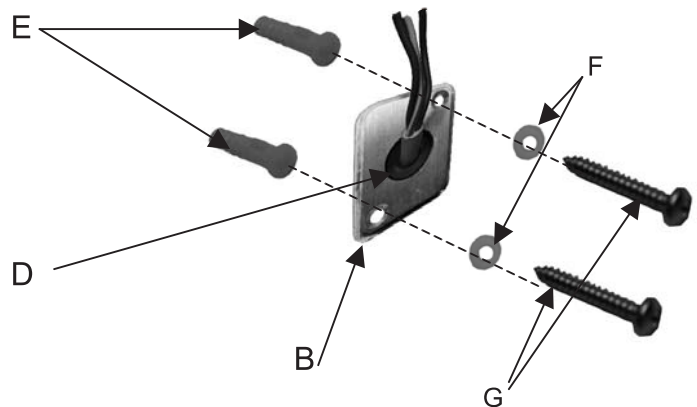

Unscrew the grub screws (A) and remove the plate (6) from the frame (C). Pierce the rubber (D) and insert the mains cable. Attach the plate (6) using the appropriate supplied wall anchors (E). Attention: place the plastic washer (F) between the screw (G) and the plate (6) Make the electrical connection using terminal (H), following instructions on the device. Place the frame (C) on the plate (6) and tighten the grub screws (A). If damaged, the LEDs lights in these devices are not replaceable.

Fix the device following the above steps, then insert the external band starting from the top towards the bottom.

Made in extra UE

MAINTENANCE

We recommend using only a soft cloth when cleaning the device. In case of stubborn dirt, dampen the cloth, and use neutral soap if necessary. DO NOT use alcohol and/or solvents.

 Approved by CSA for CANADIAN & US Safety Standard.

IP.. Protection Index. The protection rating of the lighting appliances is shown by the letters IP followed by two characteristic digits. The first of these two digits indicates the degree of protection that the appliances offer against the entry of solid foreign objects. The second one indicates the protection against the entry of water.

 The device may not be disposed of with household rubbish. This appliance is labelled in accordance with European Directive 2002/96/EG concerning used electrical and electronic appliances (waste electrical and electronic equipment WEEE). The guideline determines the framework for the return and recycling of used appliances as applicable throughout the EU. To return your used device, please use the return and collection system available to you.
