

IP 68

FLEXLITE WAVE

Flexlite is a high quality, fully encapsulated and flexible homogeneous LED profile with a protection class rating IP68. This Exterior fixture is resistant against water, UV radiation, chemicals and abrasion, making it an ideal solution for exterior spaces exposed to the elements. Available in either Curve or Wave options, Flexlite provides a uniform and consistent illumination over the entire light-emitting surface in a curve or wave form. The fixture is available in a variety of different color temperature options - Flexlite Curve: 2700K, 3150K, 4300K and 5250K, Flexlite Wave: 2700K, 3050K, 4250K and 5100K.

NOTE!

Product for indoor/outdoor application. 24V driver installed in remote location.

In case of continuous line installation, align the individual light lines to avoid malfunctions of the LED PCB.

WARNING!

Do not cover the light fixture, make sure it is guaranteed the cooling of the lamp.

Never connect or disconnect the fixture when the driver is powered.

The safety of the fitting is guaranteed by the correct use of the following instructions. It is therefore necessary to keep them.

When carrying out all assembly, maintenance and fixture replacement operations, make sure that the power is off.

The fitting should be installed by qualified installers.

Use only constant voltage power supplies provided by Zaneen. The use of different power supplies will void the warranty.
