### ARCHITECTURAL | IDAHO 40

The IDAHO built-in profile system stands for seamless lines of light with a minimalist frame, which can be designed in 27 colors. To avoid darker spots at the profile joints, overlapping LED boards are used - for uniform light bands on ceilings, walls, corner or intersecting. The Idaho 40 recessed luminaires are the optimal solution for uniform and sustainable lighting concepts. The luminaire is available with an LED-optimized opal diffuser for an even light distribution or a microprism to reduce glare and for greater visual comfort.

# SYSTEM PROFILE

highly transparent acrylic glass.

51mm 2" E

Available for International specifications by adding 'INT' at the end of the existing Model #. For assistance on 'custom' specifications, contact zteam@zaneen.com. In a constant effort to supply the best product, we reserve the right to change specifications or materials without notice. The most recent specification sheets are found at zaneen.com

IDAHO 40 RECESSED SYSTEM

SPECIFICATION SHEET

## SYSTEM GUIDE

To make your product selection and complete system specification, proceed with the following: review system options, create your system code in the field below and include your quantity. For the components, use the field beside each product name. Submit to quotes@zaneen.com to receive a formal BOM and finalized model numbers.

#### EXAMPLE A3ID40-REC-SYS-UNV-DN-27K-OP-S-01

# **IDAHO 40** RECESSED SYSTEM

SPECIFICATION SHEET

### SYSTEM SUMMARY

#### System

**Type** Recessed (Non-IC type) Rated for Dry Locations Ceiling and Wall Mounted

Approval Status CSA Certified to CSA and UL Standards

#### Emission

Refer to emission icon beside each light insert and symbol legend for descriptions

#### ....

Efficiency Acrylic Opal Diffuser (snap-in) lens 43% Micro-prismatic Diffuser (snap-in) lens 53%

#### Profile

**Measurement** w 50mm (1 <sup>15</sup>/<sub>6</sub>") x ht. 76mm (3")

#### Housing

Anodized extruded aluminum profile available per meter and field-cuttable Profiles have a maximum length of 3000mm (9' 10 <sup>15</sup>%") and joined together with couplers to ensure uniform appearance and easy installation

#### Cutout

w 43mm (1 <sup>1</sup>/<sub>16</sub>") ± 1mm x Profile Length + 30mm (1 <sup>3</sup>/<sub>6</sub>") **Drywall Ceiling Thickness** Installation clips function with drywall thickness between 10mm ( <sup>3</sup>/<sub>6</sub>"), - 25mm (1") **Recessed Depth** h 100mm (3 <sup>1</sup>/<sub>16</sub>")

#### Electrical

#### Connections

Luminaries are pre-wired with a factory installed branch circuit wiring and quickrelease connectors. Through wiring is used to connect the luminaries.

#### Power Feed

Located 2 inches from one end of the fixture, on top of the profile If a different location is required, please specify 3 Wires - non-dimming or phase dimming 4 Wires - two circuits of non-dimming or phase dimming 5 Wires - 0-10V dimming or dali dimming

#### LED Driver

Integrated with inserts Electronic Class 2 driver, Universal 120V/277V Non-Dimming Driver, Phase Dimming Driver, and 0-10V Dimming Driver (10-100%) Consult factory for driver cutsheet If a different driver is required, please specify

#### **Emergency Inverter Compatible**

To be installed remotely, and provided by others It can be located up to 250m away from the fixture

Emergency circuit wiring is available upon request (Isolated track with dedicated driver used for emergency circuit will connect to emergency battery pack - supplied by others)

PROJECT

#### General

#### Features

The multiple feed-ins at different points allow for lines of unlimited length. The optimized arrangement of the LED boards provides seamless connections without any dark spots.

In combination with a white base plate, the white internal reflector creates a perfect mixing chamber. This creates a homogeneous light pattern without individually visible LED dots.

All LED-Boards are protected from electrostatic discharge (ESD) and direct contact with the LED by a highly transparent acrylic glass.

End-caps, wall/ceiling, L, X, and T connectors can be specified with a different color option to the profile to create unique combinations

#### **Custom Requests and Additional Options**

Availability depends on insert, system, and configuration. Must consult factory and allow up to 5 business days for an answer.

Color temperature, Special CRI, RGB-W, tunable, individual sizes, special diffuser, light inserts with different outputs, light inserts on different circuits.

#### Configuration

Consult factory for patterns or custom designs Provide configuration drawings

\*Shop drawings provided upon receiving purchase order

#### Warranty

ZANEEN provides a limited warranty from date of purchase to original purchaser

LED Inserts: 5 year tested for 50,000 hours at 70% lumen output (L70) LED Driver: 5 year Non-Electrical Components: 1 year

\*Check boxes to complete specification order and submit to quotes@zaneen.com to receive a formal BOM and a finalized model number

\*In a constant effort to supply the best product, we reserve the right to change specifications or materials without notice. The most recent specification sheets are found at zaneen.com
