INSTALLATION AND USER INSTRUCTIONS
ATTENTION: PLEASE READ AND SAVE THESE INSTRUCTIONS

The safety of this fitting is only guaranteed if the instructions are followed carefully.

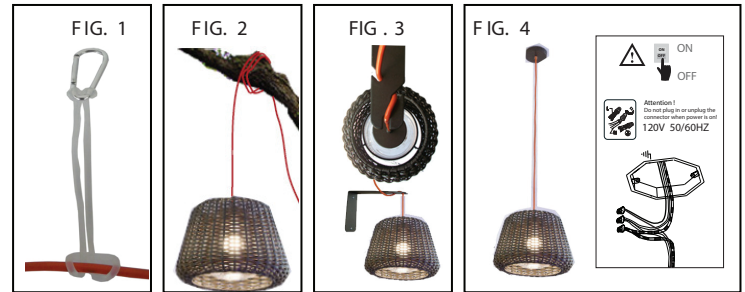

Installation and all non-routine maintenance must be carried out only by qualified personal.

Disconnect main voltage before taking any action on the fitting. Zaneen is not responsible for any damage to persons and/or property resulting from improper installation, misuse, or unauthorized modifications made to their products.

TYPES OF MOUNTING

It is possible to install the lamp in different ways:

- Fix the lamp cable to the existing frame by using the supplied hook as shown in Figure 1, or by fixing the cable to natural elements (eg. the branch of a tree FIG. 2)

MODEL

D81395	max 53W E27	IP65*		
	max 23W Micro Twist E27	IP65*		
D81396	max 53W E27	IP65*		
	max 23W Micro Twist E27	IP65*		

* Only plug version

- By using a wall bracket (accessory not included) and locking the cable on it as shown in Figure FIG. 3.

- Using the rossette (accessory included) FIG. 4.

LAMP ASSEMBLY DIAGRAM

Insert the bulb (A)

Insert the lamp shade (B) on the polycarbonate shell (C) making sure the three hooks (D) are attached correctly.

- Insert the polycarbonate cover (C) on the mounting (E) and tighten until the orange sticker (F) of the polycarbonate cover coincides with the dent (G) on the mount.

MAINTENANCE

We recommend using only a soft cloth when cleaning the device. In case of stubborn dirt, dampen the cloth, and use neutral soap if necessary. DO NOT use alcohol and /or solvents.

IP..

Protection Index

The protection rating of the lighting appliances is shown by the letters IP followed by two characteristic digits. The first of these two digits indicates the degree of protection that the appliances offer against the entry of solid foreign objects. The second one indicates the protection against the entry of water.

Class II fixture A fixture for which protection against an electric shock does not rely on basic insulation but also offers further safety measures, such as double insulation or reinforced insulation. These measures do not require grounding devices and are not dependent upon installation conditions.

The device may not be disposed of with household rubbish. This appliance is labelled in accordance with European Directive 2002/96/EG concerning used electrical and electronic appliances (waste electrical and electronic equipment - WEEE). The guideline determines the framework for the return and recycling of used appliances as applicable throughout the EU. To return your used device, please use the return and collection system available to you.
